

Liquid Dragon Flames

Are you dragon
enough?

NET 5 FL.OZ (148 mL)

Liquid Dragon Flames is, no doubt, the hottest sauce on Earth. Made from the Guinness World Record breaking Carolina Reaper. This spicy demon is a hybrid cross between a ghost pepper and a red habanero with 2,200,000 Scoville Heat Units (SHU). It'll trick you with its fruity tooty flavor and it'll knock some sense into 'ya right when you least expect it. Only someone with the might of a fire breathing dragon is able to withstand the scorchin' torture. Are you dragon enough to savor this sauce?
